

New! Ancestral Quest™ 12

Lets you Enjoy This List of Major Improvements
over your current

Genealogy Software

Incline Software is working to make Ancestral Quest compatible with
the new FamilySearch Family Tree system from the LDS Church.

Ancestral Quest 12 is a major upgrade to Ancestral Quest, the
top-selling complete family history solution. Incline Software
originally wrote what became the first Windows version of PAF.

AQ 12 represents years of enhancements to make the program so much
better. Below is a partial list of improvements available in Ancestral Quest 12.

New Capabilities

- New** Database Compare and Merge - compare to another AQ, PAF, or GEDCOM file
- New** Translate AQ into any language
- New** Store Data in any language
- New** Record DNA Test Results for individuals
- New** Tools:
 - Convert case from UPPER to Mixed
 - Convert US/Canada State/Province abbreviations to full name and back

Reporting Enhancements

- New** Publish a Family Book
- New** Print reports in a different language
- New** Dropline Descendants chart
- Enhanced** Calendar Printouts
- Enhanced** Family Group Record printout:
 - Prevent a child's information from breaking between pages
 - Print a number of blank information boxes for children
- The Change Log can now be printed

Usability Enhancements

- New** InfoCenter shows everything about an individual in one place
- New** Click on a place to look it up on MapQuest®
- New** Back and Forward navigation buttons
- Enhanced** Custom IDs can now handle Henry and Dollarhide conventions
- Scrapbook items can be stored on the Internet
- Customized sentences for Book Reports and Web pages
- Never Married Flag for an individual
- No Children Flag for a couple
- Set paths for certain file types used by AQ
- Confidential Relationships
- Additional Relationship types:
 - Couples ~ common law and de facto
 - Parent/Child ~ step and foster

LDS Enhancements

- Enhanced** Online IGI Lookups and Merges
- Enhanced** display of child ordinances
